DETAILED ACTION

Allowable Subject Matter

Claims 1-42 are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claims 1 and 22, the prior art of record, taken either alone or in combination, fails to disclose or render obvious the claimed optical fiber, in combination with the rest of the limitations of the above claims.

Regarding the claims, the prior art of record discloses a variety of optical fibers with varying refractive indices between layers of the fiber and claddings around the fiber core. However, the prior art fails to disclose the exact fiber construction of a core surrounded by a cladding and a cladding coating, with the distance between the core and the coating layer being less than 55 microns such that the higher order mode attenuation is enhanced as compared to the fundamental mode attenuation. As disclosed in claim 22, the instant fiber is looking for a higher mode attenuation loss of at least 10 dB/km, while prior art fibers are looking to keep this loss as low as possible over the length of the fiber.

As to claims 25 and 33, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a dispersion compensating module and an optical transmission system, in combination with the rest of the limitations of the above claims.

Regarding claims 25 and 33, the prior art of record, such as US Pat. 6,490,398 to Gruner-Nielsen et al., discloses an optical transmission system with a dispersion compensating module comprising a dispersion compensation fiber wrapped around a winding spool in conjunction with a transmitter, a receiver, and a long distance transmission fiber. However, the compensation

fiber of the prior art, as discussed above, varies from the fiber of the present application, leading to the allowability of the claims over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
